

### AMENDMENT TO THE SPECIFICATION

Amend paragraph 0028a as follows:

[0028a Amended] Fig. 1A shows the position of the piezoelectric torch flame ignition device [igniter] with respect to the mouth piece, in which the torch flame ignition device [igniter] is spaced from the bottom of the combustion chamber[.] , as can be seen in FIG. 1, such that the torch flame when ignited extends in a direction generally perpendicular to mouth piece pipe 16 and across the bottom of the combustion chamber.

### AMENDMENT TO THE CLAIMS

Amend claim 1 as follows:

Claim 1. (Twice Amended) A smoking device comprising:

a combustion chamber comprising a bowl for containing combustible material to be burned;

a mouth piece pipe communicating with the combustion chamber; and

a piezoelectric torch flame ignition device extending into the combustion chamber above the mouth piece pipe and below the bowl for generating a torch flame capable of extending into the combustion chamber in a direction generally perpendicular to the mouth piece pipe and across the bottom of the combustion chamber to ignite combustible material within the combustion chamber.

### AMENDMENT TO THE DRAWINGS

Please accept the attached replacement sheet for drawing sheet 3 of 4. In the replacement sheet previously submitted, the letter "A" was omitted from the figure identifier "FIG. 1".
